Professional Summary

Results-driven Frontend Developer with 3+ years of experience building smooth, performant, and visually engaging applications using Flutter and React. Skilled at writing clean, maintainable code and delivering real-world, production-grade apps. Eager to grow into React Native development and expand technical versatility across modern frontend ecosystems.

Core Skills

- Languages & Frameworks: Flutter, React, Dart, JavaScript, TypeScript, HTML, CSS, Tailwind
- State Management: Riverpod, Provider, Redux
- APIs & Backend: Firebase, Supabase, REST APIs
- Tools & Platforms: Git, Figma, VS Code, Android Studio
- Other Skills: Responsive UI/UX design, cross-platform optimization, performance tuning

Experience

Frontend Developer, Case Radar

- Maintained and scaled a Flutter-based app for incident and crime reporting.
- Integrated Firebase for real-time data sync and authentication.
- Improved app UI and performance, helping the app reach 1K+ downloads on Google Play Store.
- Live on Play Store: <https://play.google.com/store/apps/details?id=ai.caseradar.app>

Frontend Developer, KekeDrop

- Built a ride-hailing platform for auto rickshaws (kekes) using Flutter, integrating location services and driver-rider matching.
- Collaborated with backend engineers to connect REST APIs for trip management and payments.
- Focused on UI consistency, error handling, and performance optimization.

Frontend Developer, WebDerk

- Developed webderk.org, a React + Supabase-based web app for selling digital subscriptions.
- Implemented authentication, payment logic, and responsive user dashboards.

- Enhanced SEO and load performance for better user experience.
- Live: <https://webderk.org>

Segwae, Digital Networking Platform (Personal Project)

- Designed and built a cross-platform app using Flutter and Supabase for seamless social info exchange via QR/NFC. Currently growing active user base.
- Live: <https://segwae.com/>

Selected Projects

- Pico: An AI chatbot overlay built with Flutter and Anthropic API for real-time assistance.

Education

Enugu State University of Science and Technology — B.Eng Computer Engineering
September 2019 – 2024

Achievements

- Published apps on Play Store with verified downloads and positive feedback.
- Contributed to several open-source Flutter UI kits and component designs.
- Regularly share frontend dev insights and project demos on social media platforms (e.g X/Twitter and LinkedIn).
